

## 2020 Match Day

March 20, 2020

### Message From the Interim Internal Medicine Residency Program Director

We are delighted to announce the results of the Department of Medicine 2020 Categorical, Med/Peds, Med/Psych, Preliminary, and PSTP Match. These results are outstanding! Thank you to everyone who helped make the 2020-2021 recruitment season another success. We filled all 24 categorical positions and four preliminary positions with excellent candidates. We also filled four Medicine/Pediatrics and two Medicine/Psychiatry spots through the Match.

Our new residents come from geographically diverse locations, representing 16 different medical schools. The class is outstanding, especially given that the competition for positions was greater this year than ever before.

Please join me in welcoming our new incoming residents for the 2020-2021 year highlighted below.

#### **Ashley Duckett, M.D.**

Associate Professor, General Internal Medicine  
Interim Internal Medicine Residency Program Director
